The Problem

“Students are learning, but not the skills that industries need.”

 **The ZAH TRIO**
CC3H-190

Lack of Awareness

Students don't know which skills industries actually require

Theory vs Practical Gap

Colleges focuses more on theory than real-world skills

No Career Guidance

Students don't have a clear roadmaps for skill development

Why It Matters

"The skill gap affects not just careers, but the entire ecosystem."

 The ZAH TRIO
CC3H-190

Time Wasted

Students spend time learning skills that are not in demand.

Low Confidence

Repeated job rejection reduces student confidence

Companies Struggle

Companies cannot find job-ready candidates.

Unemployment

Skill gap increases unemployment and underemployment

Current Solutions & Limitations

“Existing solutions provide information but not direction.”

The ZAH TRIO
CC3H-190

LinkedIn & Skill Tests

Provide skill assessments but no clear improvement roadmaps.

01.

03.

ATS Resume Tools

Screen resumes but don't guide skill development.

Coursera/Udemy

Provides courses but no personalized skill gap analysis.

02.

04.

Main Limitations

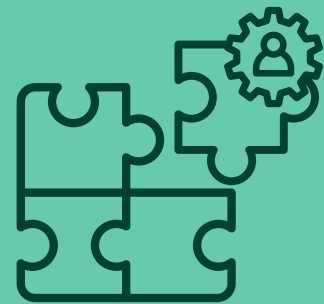

Generic advice, no real-time market analysis, no deep skill comparison.

 The ZAH TRIO

Proposed Solution

"Our solution transforms confusion into a clear career path."

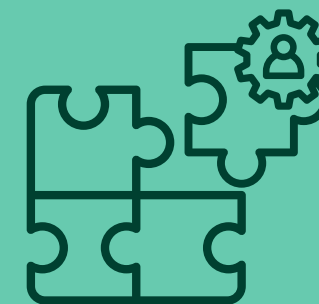

Skill Analysis Gap Detection

- Upload resume or take a test
- AI extracts current skills
- Compares with industry requirement
- Identifies missing skills (gap)

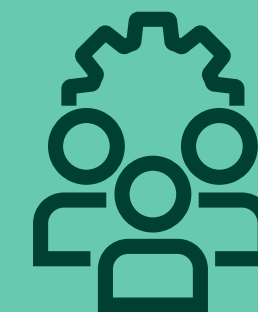

Personalised Test

- Adaptive quiz based on user level
- Covers technical + aptitude skills
- Difficulty adjusts dynamically
- Gives accurate skill evaluation

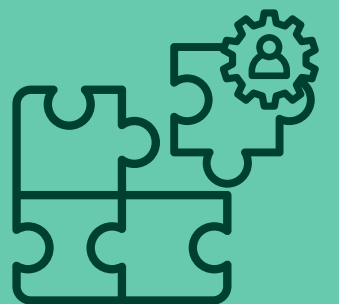

Personalized Roadmaps

- Step-by-Step learning plan
- Based on skill gap
- Includes topics, resources, timeline
- Beginner to advanced

Gamification (BATTLE MODE)

- Users compete with others
- Real-time quizzes/challenges
- Earn points & rewards
- Makes learning fun

Leaderboard

- Displays top performers
- Based on score & activity
- Encourages competition
- Tracks progress

Key Features

“Smart features that make learning targeted and effective.”

The ZAH TRIO
CC3H-190

01.

Resume Analysis (AI)

AI analyzes resume and extracts skills automatically.

02.

Skill Gap Detection

System identifies missing skills for target job.

03.

Personalized Roadmaps

Step-by-step learning path to improve skills.

04.

Progress Tracking

Track learning progress and skill improvement.

The ZAH TRIO
CC3H-190

Technology Used

"A strong technical foundation for a powerful solution."

Frontend

HTML ,CSS & JavaScript

Back-end

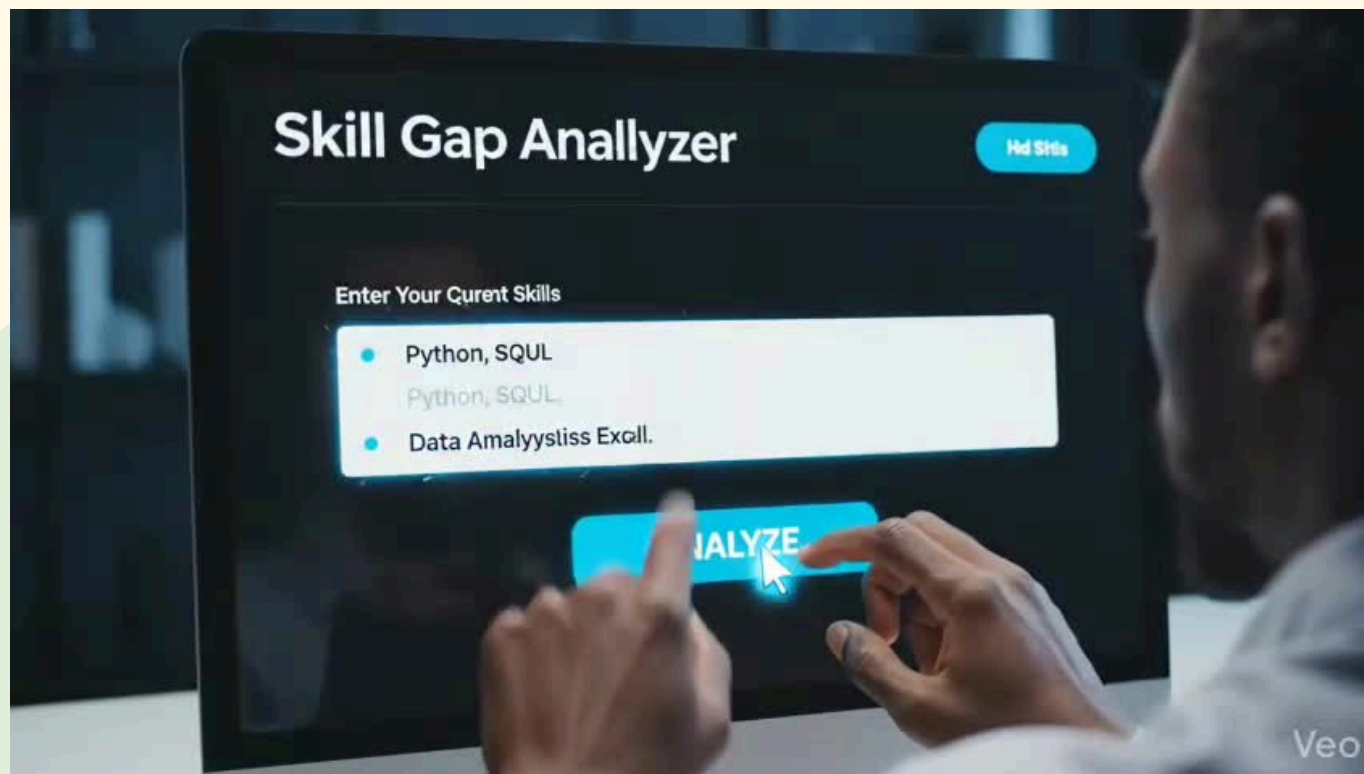

Node.js & Express
